Home Learning Grid KS2
Monday, 15th June – Friday, 26th June 2020

Maths

Access White Rose Maths Home Learning here: https://whiterosemaths.com/homelearning/

Choose the correct year group and complete the activities. Each week consists of 4 activities and a quiz on Friday. Each activity has a worksheet, with answers, and these will be uploaded onto Class Charts by your class teacher each Monday. Year 3, 4 and 5, please complete week 7 and week 8. Year 6, please compete 8 and 9 (when it becomes available it will be posted onto Class Charts).

You also need to be accessing Times Tables Rockstars when possible. Don't forget to challenge your friends!

Writing – Alternate each day with Literacy Shed Plus

Use the Oak Academy: https://classroom.thenational.academy/year-groups

Click on the year group you need -> subjects -> English. You can select which piece of writing you want to achieve! These include character description, letters, setting descriptions or a story! Each series of lessons which work towards completing a piece of writing begins with a comprehension activity, identifying the features of that genre and then writing. It includes quizzes, answers and various activities! You should try to complete 1 piece of writing per week. Therefore, over the 2 week time period of this learning grid, try to complete 2 genres altogether.

Reading – Alternate each day with The Oak Academy

Use Literacy Shed Plus: https://www.literacyshedplus.com/browse/browse/free-resources/reading-comprehension-plus/reading-packs-ages-7-11

Click on the correct age and download the free pack. It contains 5 comprehensions with answers.

QEGS is still making a blog to show what you have been doing during lockdown. Can you write a piece of no more than 300 words saying what you have done for us to publish? Please send these to us typed up. Remember you can do one more than one! Take a look: https://qegs.edublogs.org/

Please send photos and videos of any completed work to: homelearning@qegsblackburn.com

During Lockdown, many people have been outside and amongst nature, for walks or other exercise, more often than they usually would have. As a result of fewer cars on the roads – because we're all at home – there have been many reports of an increase in people noticing nature more! For example, many people are finding foxes, fox cubs, squirrels and more birds in their gardens. It's easy to forget how beautiful and important nature is when we're all busy with our busy lives and for many people, being amongst nature has been a lovely part of lockdown, allowing them to appreciate it more. For the next 2 weeks, our activities will focus on this!

PSHEE

Go into any open space and make yourself comfortable with no distractions. In your head, slowly count 5 things you can hear, 4 you can see, 3 you can smell, 2 you can touch and 1 you can taste. After this, list 3 things you are grateful for today; write these down if you wish. Do this small activity each day during the next two weeks if you can!

Computing

Can you research how Lockdown has affected nature? Write down each source that you use. A source is the place where you got your information, so the website or article. Write the title, the URL and the date it was written.

Music

Go outside. How many sounds can you hear? Are these sounds different in the morning, afternoon and night? Try to recreate these noises using household items and record this to create a piece of music. Or, use technology to record these sounds and create a piece of music! You could even add suitable lyrics.

Geography

Choose your favourite part of nature: daisies, a fox or ladybird, for example. Print out a blank map of the UK and research where you can find lots of your favourite thing and mark these places on the map.

Science

Go out into an open green space. Which animals can you see/find? Identify these and write a short fact file for each. What do they eat? Where do they live? How big do they grow to?
List the animals you see, find or know come out during the day. Make a food chain using these animals. Who is at the top?

Art

Can you create a self portrait with items you can collect on a walk/in your garden?

PE

Can you complete your Joe Wicks (or any other!) workouts outside? Do you feel any different doing it outdoors?
